### ROUND AND ABOUT THE SCHOOL

To date there has been little evidence of Spring excepting the reluctant appearance of greenness here and there and the rather tentative songs of birds and frogs which do not respond to the cold shoulder of the weatherman. In spite of this — the **Cadets** acquitted themselves well and were lucky with the weather in all their public appearances. The **Corps** paraded to Church in Aurora and on the Sunday following — from Rosedale Park to St. Paul's, Toronto, for morning service. The battalion strength formation was impressive with the whole Corps uniformly kilted, officers in blue and the rest in scarlet tunics. The day was perfect for **Inspection** and there was a tremendous turnout of O.B.'s, parents and friends. All went well. For the first time, the Pipers played a full retreat (complete with reels and strathspeys) and they excelled themselves. In the evening, Cadet Pipers played for the highland dancing at the **Cadet Dance**. The next morning (Saturday) was a half-holiday. The **Rifle Team** beat all independent Schools in the D.C.R.A. shoot and placed 11th out of 480 schools competing across Canada. The **Cross Country** was keenly contested this year — most of the large number of participants having trained for the event. **Track and Field**, along with everything else, was held up by the weather but has had a good season culminating with a whole day's **Sports Day** with a bewildering number of contestants. At the Highlanders Indoor Track Meet at Hamilton, the School won the events for independent schools and each member of the team was duly presented with a pewter tankard! **Hugh Warburton** has been the thrust behind Track and Field. The **Tennis Courts** are in play on all possible occasions under **Stan Macfarlane's** tutelage. Drill holes in the courts for sample earthcores concerned with new building foundations have interfered little! **Cricket** could have been a dead loss this year on account of late Spring and wet weather had it not been for the keenness of Coaches **Gibb** and **Adamson** AND the new concrete pitches on the Lower Field. As it is, the Team is performing creditably. No L.B.F. matches have been played before going to press, but the Old Boys took a gentle beating! **Macdonald House Night** was its usual unique self! Before viewing the exhibition of work and partaking of those delectable frozen strawberries, parents and friends watched a fine performance of "**The Ghost Train**" under **Ken Ives'** direction. The **Penguin Club** has had several distinguished guests this Term, among whom were General Sir Neil Ritchie. The **Cercle Francais** has enjoyed its regular meetings — read several plays and attended a performance of "**L'Ecole des Femmes**" (Moliere) in Toronto. Variety Night was again successfully presented — one of the features being an operetta performed by the Trebles. The **Camera Club** has been active — and some of its members attended the exhibition of photographic equipment in Toronto. The **Science Club** enjoyably and profitably spent a day at Hamilton

## 'ROUND AND ABOUT (Continued)

touring the Stelco Plant and viewing the atomic reactor at McMaster. Some Staff changes are in the offing. **Stan Macfarlane** is going to Madrid, Spain, on sabbatical leave and will return for the 1962-3 School Year. **Lloyd Gesner** (Classics — new this year) will become the Housemaster of Flavelle House. **John Del Grande** has accepted a position as Head of the Maths Department at the Newmarket High School. **Fred Hiltz** (Physics — new this year) is going on to Waterloo for his M.Sc. degree next year. **Bob Laidlaw** is still at the School and going strong. In the December issue we told you that **Mrs. Medhurst** had retired. Now we regret to tell you that she died not long ago after a short illness. She served the School well for fifteen years. The old green "truck" has been relegated to "rougher" work 'round and about the School and **Don Huntley** is now the proud driver of a new red and white one. About 4500 young **trees** were planted by the boys at the back of the property (Bathurst Street) a few weeks ago — and more are to be put in next spring. In about two weeks time, **Prize Day** will have come and gone — and "now with thanksgiving" the School Year will be over and a new group of Old Boys will have joined your ranks. Meanwhile all concerned with the School will bring to a tidy conclusion this year's operation and prepare for another good year 'round and about S.A.C.

### ROBERT EVERETT GRASS, Q.C. ('04-'08)

St. Andrew's suffered a grievous loss in April when Bob Grass died at his home in Toronto. A member of the Board of Governors since 1929 and Vice-chairman for a number of years, Mr. Grass was unremitting in his zeal for his old school. As a boy at S.A.C. he was an outstanding athlete and subsequently, at U. of T., he played on two Grey Cup teams. He is survived by two sons, W. Hamilton Grass ('37) and Ruliff Grass ('40) and to them the O.B.A. extends deepest sympathy.

### OLD BOYS' GAME

After a lapse of a year or so, the O.B. Cricket game became a fixture again. The weekend of May 24 is perhaps not a particularly good date because of cottage commitments, etc., and we'll try another time next year, but, in spite of this, an O.B. team of quite a mixture of vintages turned up to face the School. Peter Rea ('35) and Ian Macdonald ('36) opened the O.B. innings and Paul Pentland ('37) and Jimmy Stonach ('35) were top scorers with 13 and 11 respectively. The O.B. total of 57 wasn't enough to deal with the School who made 123 for 7 in spite of some surprisingly good bowling by Pentland and Derek Shenstone ('48).

Roy McMurtry ('50), Ian Macdonald ('36), Jim Stonach ('58), Paul Pentland ('37), Milt Wilson ('40), John Macdonald ('61), Derek Shenstone ('48), Dave McMaster ('60) and Peter Rea ('35) represented yesteryear and provided the School with needed confidence!

### NOTES

'02 In a letter to **Dr. Macdonald**, the Rev. George Mackay mentions that that since returning to Formosa ten years ago, he has retired from the Board of Missions of the Presbyterian Church but continues to do missionary work. The Tamsui Middle School, founded by Mr. Mackay and made "as much like St. Andrew's as possible", now has 600 pupils. Andreans of the 1940's will be interested to know that **Margaret Mackay**, the Headmaster's secretary is also in Formosa, at the American School in Taipei.

### NOTES (Continued)
